

Dear members and friends,  
we all are directly or indirectly affected by Covid 19. Sunday in two weeks' time, Switzerland celebrates the Swiss National Day, which the SCN usually does too. Covid 19 is malicious not only because it can lead to severe illness or even death, but a person can have the virus without any symptoms. Not knowing to have the virus, the person could join a gathering and passing the virus on to other people. This risk I am not prepared to take, even if it would be allowed, taking certain precautions. Therefore, I regret to announce that the SCN will not meet for celebration of the Swiss National Day.  
Wishing you all good health.

Philippe Lanz  
President
